RESEARCH INTERESTS

Machine Learning, Big Data Analytics, Geospatial Data Analytics, and Database Systems

TECHNICAL SKILLS

- **Languages & Databases:** Python, Java, C, Scala, SQL, MySQL, PostgreSQL, and SparkSQL
- **Others:** Apache Spark, Apache Sedona, GeoPandas, PyTorch, Scikit-learn, Spatial and Statistical Data Analysis, Machine Learning and Deep Learning, Pandas, Numpy, Git, Rest API, Android SDK, IntelliJ IDEA, Eclipse, and Data Visualization with Matplotlib, Seaborn, and Plotly Express

EDUCATION

- **Arizona State University** Tempe, Arizona
MS (completed) and PhD (ongoing) in Computer Science *Aug. 2018 – Present*
Advisor: Prof. Mohamed Sarwat, CGPA: 4.00
- **Chittagong University of Engineering and Technology** Chittagong, Bangladesh
Bachelor of Science in Computer Science and Engineering *Mar. 2010 – Nov. 2014*
Advisor: Prof. Mohammed Moshikul Hoque, CGPA: 3.76

EXPERIENCE

- **Wherobots Inc.** Scottsdale, Arizona, USA
Research and Development Intern *Jan. 2023 - Present*
 - **Responsibilities:** Developing scalable spatial machine learning tools, scalable map-matching, and routing algorithms.
- **Data Systems Lab, Arizona State University** Tempe, Arizona
Research Assistant *Aug. 2018 - December 2022*
 - **Research Projects:** 1) Solving research problems to enable the efficient application of big spatial data into model training. 2) Designing and implementing a spatiotemporal deep learning framework. 3) Evaluating state-of-the-art approaches for the synthesis of SQL queries from natural language questions. 4) Contributing to a geospatial entity matching framework and a satellite image labeling framework.
- **Arizona State University** Tempe, Arizona
Teaching Assistant *Aug. 2018 - December 2022*
 - **Instructor:** Served as an instructor for the course Spatial Data Science and Engineering (CSE 594) in Fall 2022. Responsibilities included preparing lecture slides and conducting lectures, preparing assignments, projects, exam questions and grading rubrics, and helping students understand lectures and projects.
 - **Teaching Assistant:** Served as a Teaching Assistant for the following courses from Fall 2018 to Spring 2022 - Distributed Database Systems, Data Processing at Scale, Object-Oriented Programming & Data Structure, Principles of Programming with C++, Principles of Programming with Java & Python
- **Gagagugu PTE LTD** Dhaka, Bangladesh
Software Engineer *Jan. 2017 - Jun. 2018*
 - **Responsibilities:** Developing Android Apps with social networking features such as calling, messaging, and posting.
- **Le Chef Plc** Dhaka, Bangladesh
Android Application Developer *Jan. 2015 - Dec. 2016*
 - **Responsibilities:** Developing Android Apps featuring online order and reservation services for restaurants in UK.

PUBLICATIONS

PROJECTS

- **GeoTorchAI**: A spatiotemporal deep learning framework, formerly known as **GeoTorch**. It enables spatiotemporal machine learning practitioners to easily and efficiently implement deep learning models targeting the applications of raster imagery datasets and spatiotemporal non-imagery datasets, besides supporting scalable data preprocessing.
- **Named Entity Recognition**: This work tunes various steps of state-of-the-art methods for named entity recognition in order to experiment the changes in performance. Evaluation is done with two popular datasets: CoNLL-2003 and OntoNotes-5.0.
- **Climate Change Forecasting**: A data science project to perform data cleaning, feature engineering, and data preprocessing operations on raw temperature data and predict temperature trend with LSTM model.
- **NLIDB-Bench**: A benchmark for evaluating state-of-the-art approaches of SQL query generation from natural language text queries. Besides proposing a set of evaluation metrics, we evaluate all approaches with three state-of-the-art datasets along with our own proposed dataset.
- **Fake News Detection**: A data science project to perform data cleaning, feature engineering, and data preprocessing operations on news datasets and classifying fake and real news with Bidirectional LSTM model.
- **Hotspot Analysis on Apache Sedona**: This work performs spatial queries and range joins between two spatial datasets and calculates Getis-Ord statistic of NYC Taxi Trip dataset to perform hot-cell analysis.

PARTICIPATION AND AWARDS

- Recipient of ACM SIGMOD 2023 student travel award to attend the conference and present a paper.
- Recipient of ACM SIGSPATIAL 2022 travel award to attend the conference and present a paper.
- Recipient of Arizona State University Graduate and Professional Student Association (GPSA) travel grant to attend ACM SIGSPATIAL 2022 and present a paper.
- Recipient of CIDSE Doctoral Fellowship at Arizona State University for the academic year 2018-2019.

- 2nd Runner-up at National Hackathon organized by ICT Division of Bangladesh in 2014. The challenge of the hackathon was to design a project based solution to solve a national problem of the country.
- 2nd Runner-up at National Mobile Application Code Hub organized by BUET, Bangladesh in 2014.
- 6th at Inter University Programming Contest organized by CUET, Bangladesh in 2012.
- Recipient of Honors award from my undergraduate university for maintaining academic excellence.

ADDITIONAL SERVICES

- **Conference Volunteer:** Volunteered to organize the conference ACM SIGSPATIAL 2022. Have been selected as a volunteer to organize the conference ACM SIGMOD 2023.
- **Grant Reviewer:** Serving as a travel grant reviewer for GPSA at Arizona State University since May 2022.
- **External Paper Reviewer:** Reviewed papers as an external reviewer for the conferences - SIGMOD, VLDB, SIGSPATIAL, and ICDE.
- **Open Source Contribution:** Contributed to Apache Sedona, an open-source geospatial cluster computing framework, by adding support for two new spatial data types. I am Serving as a PPMC member of Apache Sedona.
- **Graduate Student Member:** Student member of the organizations - Association for Computing Machinery (ACM) and Institute of Electrical and Electronics Engineering (IEEE).
- **Student Organization:** Member of Bangladesh Students' Association (BSA) at Arizona State University

COURSEWORKS

Distributed Database Systems, Statistical Machine Learning, Fundamentals of Statistical Learning, Data mining, Semantic Web Mining, Programming in C/C++, Object Oriented programming, Data Structure, Algorithms, Discrete Mathematics, Artificial Intelligence, Software Engineering, Operating Systems, Database Management Systems, Social Media Mining, Big Data Analysis with Scala and Spark, Deep Neural Networks with PyTorch, and Effective Programming in Scala.
